RETIREMENT COMMUNITY

Home Health & Therapy

LLC

EXTRAORDINARY PEOPLE. EXCEPTIONAL CARE

Bringing therapy to YOU!

Appleton Retirement Community is partnering with PRN Home Health & Therapy to serve your therapy needs right where you live.

PRN offers:

***Nursing Care**—whether you could use some nursing oversight and care after a surgery, need wound care nursing or help managing pain, PRN can provide a nurse to come right to your apartment. PRN nursing can also help address care for chronic illnesses, injuries and provide help managing your diabetes better.

***Therapy services**—occupational therapy, physical therapy and speech therapy are only three of the therapy services PRN offers. With use of a therapy table, parallel bars, an arm and foot pedal bike, therapists will work with you to improve your range of motion, endurance, strength, balance and much more. PRN offers specialized treatment programs. They manage lymphedema and are certified in LSVT BIG & LOUD.

*PRN also offers electronic stimulation and ultrasound technology.

How do I arrange to be seen by PRN?

Appleton Retirement Community residents on assisted living services can see the Health Care Coordinator, RN, or another member of the Health Care team at Appleton Retirement Community.

Appleton Retirement Community residents on independent living services can call Mary Boyce from PRN at 920-257-8140.

What will these services cost me?

PRN accepts Medicare, Medicaid, private insurance and private pay. PRN staff will let you know if there will be an out of pocket cost prior to starting services.

Where is the therapy room located?

The newly built therapy room is located in the lower level. It is in the storage unit area. Take the elevator to the lower level and follow the sign to the storage unit door.
